

STRATEGIC B2B ASSET INVESTMENT PLAN

The Commercial Catering Fleet

Passive weekend-lease income from catering equipment, timed to the December event season

Executive Summary

THE MACRO TREND

Nairobi has an unshakeable weekend event culture. Corporate galas, graduations, weddings, and traditional gatherings all require significant physical equipment — and event planners rarely buy their own inventory. They lease it per event to protect cash flow.

Rather than opening a high-risk restaurant, the investment strategy is to purchase high-demand, commercial-grade food production and dining sets — physical assets that hold resale value and generate weekend lease income immediately.

15.6%

Sector growth rate

Accommodation & Food Services sector growth, per Kenya National Bureau of Statistics (KNBS) data.

The Investment Strategy

Buy commercial catering assets once, lease them out every weekend, and let an existing event-yard partner run the operations end-to-end.

The Core Asset Inventory

Two operational sets, grouped for maximum utility across every event type

Group A — Food Production

Back-of-house

- **Commercial Sufurias**
Heavy-duty industrial aluminum, sizes 12–20, for mass food prep
- **Stainless Steel Tea Urns**
High-capacity insulated dispensers, 20L–40L, for corporate breakouts
- **Insulated Flasks & Hot Pots**
Commercial-grade temperature control to protect food presentation

Group B — Dining & Service

Front-of-house

- **Chafing Dishes**
Roll-top, double-burner stainless steel buffet presentation units
- **Porcelain Plates & Bowls**
Durable white ceramic dining sets, standard 10-inch cuts
- **Cutlery & Glassware**
Polished stainless flatware; highball and wine glass sets in crates

Group A — Food Production

Indicative weekend rental price per piece, Nairobi market

Item	Size / Specification	Weekend Rental Price (Per Piece)
Commercial Sufuria	Size 12	KES 150
Commercial Sufuria	Size 16	KES 200
Commercial Sufuria	Size 20	KES 250
Stainless Steel Tea Urn	20L capacity	KES 500
Stainless Steel Tea Urn	40L capacity	KES 800
Insulated Flask / Hot Pot	Commercial-grade	KES 150

Rates reflect typical Nairobi event-equipment leasing ranges and should be confirmed with the yard partner before contracting.

Group B — Dining & Service

Indicative weekend rental price per piece, Nairobi market

Item	Size / Specification	Weekend Rental Price (Per Piece)
Chafing Dish	Roll-top, double-burner	KES 600
Porcelain Dinner Plate	Standard 10-inch	KES 20
Porcelain Bowl	Standard	KES 20
Executive Cutlery Set	Fork, knife & spoon	KES 15
Highball Glass	Standard	KES 15
Wine Glass	Standard	KES 20

Rates reflect typical Nairobi event-equipment leasing ranges and should be confirmed with the yard partner before contracting.

SECTION TWO

Detailed Budget Breakdown

400-Pax wholesale fleet costing, category by category, sourced through Kamukunji

400-Pax Fleet Budget — Group A

Food production capacity to cook and hold hot beverages for 400 guests, Kamukunji wholesale pricing

Item	Units	Unit Price (KES)	Subtotal (KES)
Commercial Sufurias (Sizes 12–20)	6	6,500	39,000
Stainless Steel Tea Urns (35L)	2	11,000	22,000
Insulated Flasks & Hot Pots	4	2,500	10,000
Set Subtotal			KES 71,000

400-Pax Fleet Budget — Buffet & Serving

Group B, buffet presentation and serving equipment, Kamukunji wholesale pricing

Item	Units	Unit Price (KES)	Subtotal (KES)
Chafing Dishes (Hydraulic/Standard Multi-Burner)	10	4,500	45,000
Serving Spoons	15	150	2,250
S/S Tongs	10	150	1,500
Platters / Serving Trays	8	1,200	9,600
Set Subtotal			KES 58,350

400-Pax Fleet Budget — Plates & Crockery

Group B, includes a safe buffer volume over the 400-guest baseline for table rotation

Item	Units	Unit Price (KES)	Subtotal (KES)
Dinner Plates (12")	450	200	90,000
Side Plates (10")	450	150	67,500
Clear Salad Bowls	50	100	5,000
Tea Cups & Saucers (Sets)	200	120	24,000
SS Tea Spoons	200	25	5,000
Set Subtotal			KES 191,500

400-Pax Fleet Budget — Cutlery & Glassware

Group B, heavy stainless steel cutlery fleet and glassware, Kamukunji wholesale pricing

Item	Units	Unit Price (KES)	Subtotal (KES)
Dinner Forks	450	50	22,500
Dinner Knives	450	60	27,000
Dessert Forks / Knives	200	40	8,000
Soup Spoons	200	50	10,000
Table Spoons	450	40	18,000
Highball Glasses	450	70	31,500
Wine Glasses	300	120	36,000
Flute Glasses	200	100	20,000
Set Subtotal			KES 173,000

400-Pax Startup Budget: Retail vs. Wholesale

Sourcing the complete fleet through the Kamukunji wholesale hub instead of retail suppliers

RETAIL

BuyTrend (Mombasa Road)

KES 1,120,000+

Heavy retail margins per unit

KAMUKUNJI WHOLESALE

Complete fleet deployment

KES 493,850

Full 400-pax inventory, all categories

Financial Margin Saved

KES 626,150+

Breakdown: Group A KES 71,000 • Buffet & Serving KES 58,350 • Plates & Crockery KES 191,500 • Cutlery & Glassware KES 173,000

The Asynchronous Operating Model

Designed around a full-time 7:00 AM – 3:00 PM work schedule — zero customer handling required

1

Contract Arrangement

Assets are dropped off at a trusted Nairobi Event Yard or partnered freelance Event Coordinator with secure storage.

2

Total Deployment

The yard agent lists inventory on weekly hire sheets and handles loading, delivery, on-site setup, and post-event washing.

3

Record Auditing

Digital payouts and a strict data log hit the client's account weekly — reviewed asynchronously, no live calls.

The Operational Boundary: the client checks in asynchronously and never takes phone calls during office hours — the agent operates under a strict data-log tracking sheet.

Financial Projections & the December Wave

December is the single highest-volume event month in Kenya — the launch is timed to capture it

The Revenue Loop

85%

net rental fee paid directly to client
via bank or M-Pesa till, weekly

15%

management & cleaning cut retained
by the yard agent

Velocity of Capital

Purchasing assets in September and October positions the fleet to ride the full December festive wave — corporate end-of-year parties, weddings, and family gatherings — with peak weekend payouts landing right at the January 2027 deadline.

Risk Awareness & Regulatory Guardrails

Three dependencies mapped out for a clean, professional launch

Data Asset Tracking

Every plate, glass, and sufuria is laser-marked with a unique tracking string (e.g., FF-PLATE-001) and logged in a relational Airtable base, to prevent loss or mixing at shared venues.

Public Health & Sanitisation

The agent signs a compliance agreement enforcing strict commercial sanitisation — high-temperature washing and food-safe drying — to protect end consumers.

Legal Protections

A structured B2B equipment lease contract sets clear deposit rules and financial liability terms for any damaged cutlery or glassware in transit.

A Structured, Passive Asset Play

Buy once. Deploy through a trusted partner. Collect returns every weekend — timed to peak just as the January deadline arrives.
